The platform as it relates to State affairs calls for economical government, equitable taxation of corporate and private property. "To the end that the evils connected with the growth of trusts may be eliminated, we call for the removal of the tariff on all trustmade goods.

"When the sources of supply of any product are in the ownership of those who combine to extort from the people an unreasonable amount for such products then we believe it is the duty of the Government to take such steps as may be necessary to secure an equitable distribution thereof, with fair compensation to the owners of the same, and so that the design of nature in making provisions for the wants of man may not be perverted into means for his oppression."
